ENGINEERING CASES

Mr. Huang Daode is an influential entrepreneur and chairman of Zhejiang AMA&Hien technology Co.,LTD. and Zhejiang Hien New Energy Equipment Co., Ltd. Starting from scratch in 1989, he has led the transition from the electronic connector industry to becoming a prominent figure in the production of air source heat pumps. His dedication and unwavering commitment to sustainable energy have been recognized through numerous awards and accolades, firmly establishing him as a distinguished authority in the industry.

COMPANY PROFILE

ABOUT HIEN

Zhejiang AMA & Hien Technology Co., Ltd. (Hereinafter referred to as Hien) founded in 1992, firstly started as an electronic component manufacturer. With a registered capital of 300 million RMB, Hien entered the air source industry in 2000. It is a leading enterprise of air source heat pumps in the area of product R & D, production, sales, and after-sales service. Hien owns one of the largest production bases of heat pumps in China, as well as the CANS certified state-level comprehensive laboratory.

PRODUCTION LINE

With a total of 60000 SQM construction area and more than 1000 processing equipment, the main factory has 6 assembly lines, and the branch factory has 3 production workshops. Main products are residential heat pumps, commercial heat pumps, industrial heat pumps, and finned heat exchanger etc. Units from 3KW to 320KW, for hot water, heating, cooling, as well as heat pump dryers for the production of tobacco, aroma wicks, tea, fruits and vegetables, medicinal herbs, and other categories.

DEVELOPMENT HISTORY

1992

The company Zhengli was founded, major in electronic component manufacturing.

2003

The first air source Heat pump water heater Was produced.

2013

Hien is the first one to replace boiler with air source heat pump for heating.

2016

Launch of dual-supply series Heat pump products.

2020

Full category layout of Smart Home

2022

Establish the overseas sales Subsidiary Hien New Energy Equipment Ltd.

2010

The first ultra-low temperature Air source heat pump Was produced.

2019

We gained the honor of Made in Zhejiang "Pinzibiao"

2023

Awarded the 'National Green Factory' certification

2000

Set up Shengneng(Hien). We entered the air source industry.

2015

The first cascade air source Heat pump launched into the market.

2021

We won the title of "Little Giant" issued by The Ministry of Industry and Information Technology.

AMA & HIEN

R&D STRENGTH

The existing research and development site covers an area of 5000 square meters, with research equipment worth more than 20 million yuan, and 106 technical personnel. The expertise covers thermal power, electrical engineering, environmental engineering, energy management, and the safe operation management of thermal power plants.

With more than 130 invention patents, 2 R&D centers, a national - level post-doctoral research workstation, Hien has been committed to research and development on the core technology of air source heat pump for more than 23 years. We understand the pain points our customers face. That's why we're proud to offer exceptional ODM services. Our dedicated team strives to provide tailored solutions that perfectly meet your unique needs. Let us take care of the technicalities while you focus on growing your business.

PRODUCTION ABILITY

AMADA CNC MACHINE TOOL

LONG U AUTOMATIC PIPE BENDER

AUTOMATIC BENDING MACHINE

Hien is a leading brand in the Chinese heat pump industry, integrating product research and development, equipment production, sales, and service. Our products cover four major areas: cooling and heating, hot water, drying, and swimming pool heat pumps. We have the capacity to produce 1 million air source heat pumps annually, and we empower every stage of product manufacturing with advanced modern processing and manufacturing equipment.

Currently, each workshop is equipped with 236 types of automated equipment, including over 20 key devices such as fully automatic G-type bending machines, vacuum helium testing equipment, high-speed punch presses, automatic non-shrinking tube expander machines, fully automatic pipe making machines, and CNC punch presses.

The production workshop has always aimed to achieve "lean production" and "green manufacturing", consistently adhering to independent innovation and actively improving traditional processes and developing automation projects. In order to better coordinate production, advanced production equipment has been installed in each workshop. With an annual output value of around 2 billion, it is one of the largest production bases in the professional heat pump field.

QUALITY CONTROL

Each air source heat pump must pass 43 standard tests in 8 categories from the beginning of production to the finished product.

ISO9000 Quality Definition

Quality:

The degree to which a set of inherent characteristics meets requirements.

Requirements:

Includes implicit and specified needs, which in many cases may change over time.

Quality Policy:

"Adopt advanced technology, adhere to continuous innovation, enhance customer satisfaction, and fulfill quality commitments."

WHY DO BUSINESSES NEED HIGH QUALITY?

Direct Expression:

- Reduced failure rate
- Less rework and waste
- Reduced inspection and testing
- Reduced market maintenance rate
- Shortened time to market for new products
- Increased product price

Indirect Cause:

- High customer satisfaction
- Reduced manufacturing costs
- Lower inspection expenses
- Reduced maintenance costs
- Increased market share
- Increased profits

PROJECTS

MORE THAN 70000 PROJECTS COMPLETED SO FAR;
MORE THAN 6.5 MILLION PRODUCTS DELIVERED.
