DEVELOPMENT

HISTORY

Daode Huang

Mr·Huang Daode is an influential entrepreneur and chairman of Zhejiang AMA&Hien technology Co,LTD. Starting from scratch in 1989, he has led the transition from the electronic connector industry to becoming a prominent figure in the production of air source heat pumps. His dedication and unwavering commitment to sustainable energy have been recognized through numerous awards and accolades, firmly establishing him as a distinguished authority in the industry.

ENTERPRISE

STRENGTH

Hien is a leading brand in the Chinese heat pump industry, integrating product research and development, equipment production, sales, and service. Our products cover four major areas: cooling and heating, hot water, drying, and swimming pool heat pumps. We have the capacity to produce 1 million air source heat pumps annually, and we empower every stage of product manufacturing with advanced modern processing and manufacturing equipment.

PRODUCTION EXPERIENCE

30+ Years

PRODUCTION LINES

6+ Lines

R&D TEAM

100+ Workers

TRANSACTION AMOUNT

1,100,000,000+

COMPANY SCALE

With 25 years of dedication to air source heat pumps, Hien leads the industry in R&D and manufacturing. The Group now owns two renowned brands — "Hien" and "AMA" — operates two large manufacturing bases, 15 branches and subsidiaries, and collaborates with over 5,300 strategic partners across China.

15 COMPANIES

15 BRANCHES & SUBSIDIARIES 2 LARGE MFG. BASES

5,300 STRATEGI PARTNERS

Our after-sales service team is always on standby to provide customers with the most considerate service. Whether it's installation and commissioning, maintenance and repair, or technical support, we will respond as quickly as possible to ensure that your equipment is always in the best operating condition.

To better serve our European customers, we are setting up storage and training bases in **Germany**, **Italy**, **and the United Kingdom**.

R&D STRENGTH

The existing research and development site covers an area of 5000 square meters, with research equipment worth more than 20 million yuan, and 106 technical personnel. The expertise covers thermal power, electrical engineering, environmental engineering, energy management, and the safe operation management of thermal power plants.

Hien has 130+ invention patents, 2 R&D centers and a national post-doctoral workstation, focusing on air source heat pump core tech R&D for 23+ years. Understanding your pain points, we offer top ODM services with tailored solutions. Let us handle tech, you focus on business growth.

WORLD-CLASS R&D CAPABILITY INDUSTRY'S BIGGEST LABORATORY CLUSTER

Equipped with a -35 °C national-level environmental performance lab, a CNAS-accredited laboratory, and 30+ specialized labs, the company has built one of the industry's largest laboratory clusters, certified by authoritative bodies.

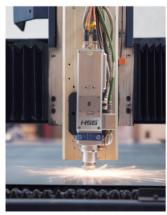

PRODUCTION ABILITY

95% in-house core components

THE INDUSTRY'S MOST COMPLETE FULL-INDUSTRY-CHAIN ENTERPRISE

With 12 component workshops under strict quality control, Hien is equipped with advanced facilities for producing four core components — evaporators, condensers, compressors, and controllers — supported by high-performance testing equipment to ensure strong capacity and premium quality.

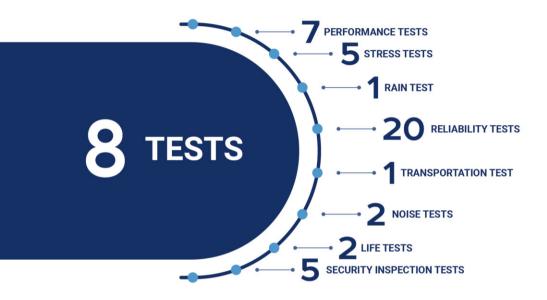

Currently, each workshop is equipped with 236 types of automated equipment, including over 20 key devices such as fully automatic G-type bending machines, vacuum helium testing equipment, high-speed punch presses, automatic non-shrinking tube expander machines, fully automatic pipe making machines, and CNC punch presses.

The production workshop has always aimed to achieve "lean production" and "green manufacturing", consistently adhering to independent innovation and actively improving traditional processes and developing automation projects. In order to better coordinate production, advanced production equipment has been installed in each workshop. With an annual output value of around 2 billion, it is one of the largest production bases in the professional heat pump field.

QUALITY CONTROL

Each air source heat pump must pass 43 standard tests in 8 categories from the beginning of production to the finished product.

14 QUALITY INSPECTIONS

SUPERIOR CRAFTSMANSHIP · INTERNATIONAL QUALITY

High-Temperature Test

60 °C water temperature stability test.

Simulated Condition Test

Stability verification under multiple operating conditions.

Precision Measurement

Temperature, water flow, current, power, COP, heating capacity.

Halogen Leak Detection

Accuracy up to 0.1 g/y.

Electrical Safety Tests

Withstand voltage, leakage current, grounding resistance, insulation.

ISO 9001 QUALITY DEFINITION

Quality:

The degree to which a set of inherent characteristics meets requirements.

Requirements:

Includes implicit and specified needs, which in many cases may change over time.

Quality Policy:

"Adopt advanced technology, adhere to continuous innovation, enhance customer satisfaction, and fulfill quality commitments."

300,000+ COAL-TO-ELECTRICITY USERS RANKED AMONG INDUSTRY TOP 5

COMMERCIAL HEATING PROJECT

Heating Project for Jiulong Community, Hebei

Project Overview:

Total building area of approximately 200,000 square meters

Unit Configuration: 70 units of DLRK-160II/C4

RESIDENTIAL HEATING PROJECT

Project Title:

Rural Clean Energy Heating Project in Lingwu City

Unit Configuration: 10,031 units of DLRK-13IBM

COMMERCIAL HOT WATER PROJECT

Hot Water Project for Hengshui High School in Hengshui City, Hebei Province

Hot Water: 500 tons

Unit Configuration: 48 units of DKFXRS-32II/C2

MORE THAN **70,000** PROJECTS COMPLETED SO FAR MORE THAN **6.5 MILLION** PRODUCTS DELIVERED.

CLEAN ENERGY PROJECT

Sanyuan County, Xianyang

Project Overview:

Winter clean heating pilot project.

Unit Configuration:

1.174 units of Shenanena DLRK - 4 I BM/C1

CLEAN ENERGY PROJECT

Jungar Banner, Ordos

Project Overview:

Coal-to-electricity clean heating project.

Unit Configuration: 450 units

CLEAN ENERGY PROJECT

Menghai Town, Hangjin Rear Banner, Bayannur

Project Overview:

Winter clean heating project.

Unit Configuration: 291 units
